Yesterday – today – tomorrow | When my father Gert founded Noël Marquet & Cie SA together with his business partner Raymond Marquet in the small Belgian village Hauset back in 1950, he could not possibly have foreseen that in 70 years' time this company would go from selling household products to a corporate group active in over 100 countries in the field of synthetic foams, its core endeavour being to find solutions that improve people's lives.

Through the development of innovative technologies, decorative products were initially handcrafted to unprecedented perfection and variety affordable for everyone.

We then took the next step with a new brand name, NOËL & MARQUET, synonymous with our decades of expertise in premium design, and guarantee seal for quality, service and advice at the highest level. The clearly structured portfolio is a reflection of our experience in innovation, design, inspiration, development and quality.

Discover the world of NOËL & MARQUET in this catalogue: Design elements and endless possibilities for a personal and creative living space.

I hope you will have a lot of fun planning, creating and enjoying the experience.

Gestern – heute – morgen | Als mein Vater Gert mit seinem Geschäftspartner Raymond Marquet 1950 die Firma Noël Marquet & Cie im kleinen belgischen Dorf Hauset gründete, konnte er sicherlich noch nicht ahnen, was binnen 70 Jahren aus diesem Unternehmen werden würde. Aus einem Vertrieb für Haushaltsprodukte, wurde eine in über 100 Ländern tätige Unternehmensgruppe im Bereich synthetischer Schaumstoffe. Mit dem Bestreben, Lösungen für ein besseres Leben zu schaffen.

Durch die Entwicklung innovativer Technologien wurden anfänglich handwerklich gefertigte Dekorationsprodukte in einer bis dahin nicht gekannten Perfektion und Vielfalt für jedermann erschwinglich.

Mit der neuen Marke NOËL & MARQUET machen wir den nächsten Schritt: NOËL & MARQUET steht für unser jahrzehntelanges Know-How im Bereich Premium Design und ist Garantiesiegel für Qualität, Service und Beratung auf höchstem Niveau. Das klar strukturierte Portfolio ist Spiegel unserer Erfahrung in Innovation, Inspiration und Entwicklung.

Entdecken Sie in diesem Katalog die Welt von NOËL & MARQUET - Design Elements und die unendlichen Möglichkeiten, die sich bieten, Ihren Lebensraum individuell und kreativ zu gestalten.

Ich wünsche Ihnen viel Spaß beim Planen, Erschaffen und Erleben.

YESTERDAY. TODAY. TOMORROW.

Hier – Aujourd’hui – Demain | Lorsqu’en 1950, mon père Gert fonda à Hauset, en Belgique, l’entreprise Noël Marquet & Cie SA avec son partenaire commercial Raymond Marquet, il ne se doutait certainement pas de l’ampleur que cette société allait prendre en l’espace de 70 ans. L’entreprise de distribution de produits ménagers est devenue un groupe spécialisé dans les mousses synthétiques, actif dans plus de cent pays du monde entier. Son idée initiale est de concevoir des solutions destinées à améliorer notre vie quotidienne.

Grâce au développement de technologies novatrices, les produits de décoration initialement fabriqués de façon artisanale, sont devenus abordables pour tous, avec une perfection et une variété jusqu’alors inconnues.

Avec la nouvelle marque NOËL & MARQUET, nous faisons le pas suivant :

NOËL & MARQUET représente notre savoir-faire de plusieurs décennies dans le domaine du design haut de gamme et constitue le sceau garantissant l’excellence de la qualité, des services et des conseils. Très bien structuré, le portefeuille reflète notre expérience en matière d’innovation, de design, d’inspiration, de développement et de qualité.

Dans ce catalogue, vous découvrirez l’univers des éléments décoratifs NOËL & MARQUET ainsi que les innombrables possibilités qui s’offrent à vous pour l’aménagement créatif et personnalisé de votre espace de vie.

Je vous souhaite beaucoup de plaisir à planifier, créer et apprécier votre intérieur !

Gisteren - Vandaag - Morgen | Toen mijn vader Gert in 1950 samen met zijn handelspartner het bedrijf Noël Marquet & Cie SA oprichtte in het Belgische dorpje Hauset, had hij er beslist geen idee van hoe sterk het bedrijf in 70 jaar zou groeien. De oorspronkelijke verdeler van huishoudproducten is uitgegroeid tot een specialist in synthetische schuimproducten, die wereldwijd actief is in meer dan honderd landen. De groep wil in de eerste plaats oplossingen bieden die ons dagelijks leven verbeteren.

Door de ontwikkeling van innoverende technologieën werden de decoratieproducten, die oorspronkelijk artisanal werden geproduceerd, toegankelijk voor iedereen, met een nooit eerder geziene perfectie en variëteit.

Met het nieuwe merk NOËL & MARQUET breekt nu het volgende tijdperk aan: NOËL & MARQUET staat voor de knowhow die wij decennialang hebben verworven met hoogstaande vormgeving. Het merk is een waarborg voor uitstekende kwaliteit, diensten en adviezen. De goed gestructureerde portfolio weerspiegelt onze ervaring met innovatie, design, inspiratie, ontwikkeling en kwaliteit.

Ontdek in deze catalogus de wereld van NOËL & MARQUET - Design Elements en de talloze mogelijkheden om uw leefomgeving creatief en persoonlijk in te richten.

Ik wens u veel plezier met het plannen, creëren en appreciëren van uw interieur!

Even today, nearly 70 years after the company was founded, we produce NOËL & MARQUET Design Elements at the Eynatten site in Belgium.

Auch heute, fast 70 Jahre nach der Firmengründung produzieren wir NOËL & MARQUET Design Elemente am Standort Eynatten in Belgien.

Aujourd'hui, près de 70 ans après la fondation de la société, la production des éléments décoratifs NOËL & MARQUET est toujours assurée sur le site d'Eynatten, en Belgique.

Ook nu, bijna 70 jaar na de oprichting van het bedrijf, produceren wij nog steeds NOËL & MARQUET design-elementen in de vestiging in het Belgische Eynatten.

QUALITY AND STYLE

Two manufacturing processes – two results: quality and style |

1 Foams For more elaborate, 3-dimensional forms with love for detail, we use aluminium moulds in which high-density polyurethane foam (ARSTYL®) is injected, resulting in precisely manufactured design elements particularly rich in detail or austere modern. We use this process also to produce our special FLEX mouldings as well as design elements (DOMOSTYL®) which are suitable for outdoor use.

2 Extrusion In the extrusion process, polystyrene is moulded in medium and high density to light (NOMASTYL®) or shock-resistant (WALLSTYL®) design elements. All design elements manufactured by means of extrusion are moreover waterproof and can therefore be used in damp areas without hesitation. Gluing surfaces and a primer facilitate the subsequent processing.

Whatever design elements you opt for, engineers, designers and staff are constantly working in development and production to meet the quality requirements of NOËL & MARQUET. Over 70 years of experience and a distinctly innovative spirit make the appeal, authenticity and quality of NOËL & MARQUET products simply unique.

Zwei Herstellungsverfahren – zwei Ergebnisse: Qualität & Stil |

1 Schäumen Für aufwendigere, 3-dimensionale Formen mit Liebe zum Detail, verwenden wir Aluminiumformen in welche hochverdichteter Polyurethanschaum (ARSTYL®) eingespritzt wird. Resultat sind präzise gefertigte Design-Elemente, mal besonders detailreich oder aber puristisch modern. Dieses Verfahren nutzen wir ebenfalls zur Produktion unserer speziellen FLEX Leisten sowie die, für den Außeneinsatz geeigneten, Design-Elemente (DOMOSTYL®).

2 Extrusion Im Extrusionsverfahren werden Polystyrol in mittleren und hohen Dichten zu entweder leichten (NOMASTYL®) oder stoßfesten Design Elementen (WALLSTYL®) geformt. Alle mittels Extrusion hergestellten Design Elemente sind zudem wasserresistent und somit bedenkenlos für den Einsatz in Feuchträumen geeignet. Gefräste Klebeflächen und eine Vorgrundierung erleichtern die spätere Verarbeitung.

Für welche Design-Elemente Sie sich auch entscheiden, in Entwicklung und Produktion arbeiten Ingenieure, Designer und Mitarbeiter stetig daran, den Qualitätsansprüchen von NOËL & MARQUET gerecht zu werden. Über 70 Jahre lange Erfahrung gepaart mit ausgeprägtem Innovationsgeist machen die Produkte von NOËL & MARQUET in ihrer Attraktivität, Authentizität und Qualität einzigartig.

1

Deux procédés de fabrication – deux résultats : qualité et style |

1 Moussage Par amour du détail, nous utilisons, pour les formes en relief plus élaborées, des moules en aluminium dans lesquels est injectée de la mousse de polyuréthane haute densité (ARSTYL®). Résultat : des éléments design très précis, tantôt particulièrement riches en détails, tantôt d'un modernisme épuré. Nous utilisons le même procédé pour la production de nos profilés spéciaux FLEX et pour les éléments décoratifs adaptés à l'extérieur (DOMOSTYL®).

2 Extrusion L'extrusion consiste à former des éléments design légers (NOMASTYL®) ou résistants (WALLSTYL®) à partir de polystyrène de moyenne ou de haute densité. Tous les éléments décoratifs fabriqués par extrusion sont en outre résistants à l'eau et donc parfaitement utilisables dans des pièces humides. Les surfaces de collage fraisées et la couche d'apprêt appliquée en usine facilitent la mise en œuvre ultérieure.

Quel que soit votre choix parmi les éléments décoratifs, les ingénieurs, designers et collaborateurs des départements Développement et Production veillent toujours à répondre aux exigences de qualité de la marque NOËL & MARQUET. Associer plus de 70 années d'expérience à l'esprit éminemment novateur du groupe, rend les produits NOËL & MARQUET absolument uniques par leur attrait, leur authenticité et leur qualité.

2

Twee technologieën – Twee resultaten: kwaliteit en stijl |

1 Schuimvorming Voor vrij complexe driedimensionale vormen gebruiken wij, met een zekere liefde voor het detail, aluminium vormen waarin het polyurethaanschuim met hoge densiteit wordt geïnjecteerd (ARSTYL®). Resultaat: zeer nauwkeurig geproduceerde design-elementen, soms rijkelijk gedecoreerd, soms van een verfijnd modernisme. Wij gebruiken hetzelfde productieproces voor onze speciale FLEX-profielen en onze aangepaste design-elementen voor buiten (DOMOSTYL®).

2 Extrusie Extrusie bestaat in het produceren van lichte (NOMASTYL®) of impactbestendige design-elementen met behulp van polystyreen van gemiddelde of hoge densiteit (WALLSTYL®). Alle design-elementen die door extrusie worden gefabriceerd, zijn bestand tegen water en mogen dus gerust in bijvoorbeeld keukens of badkamers worden toegepast. De uitgefreesde lijmzones en de in de fabriek aangebrachte grondlaag vereenvoudigen het aanbrengen en overschilderen.

Welke design-elementen u ook kiest, onze departementen Ontwikkeling en Productie, onze ingenieurs, designers en medewerkers waken er altijd over dat ze volledig voldoen aan de kwaliteitseisen van het merk NOËL & MARQUET. Door onze lange ervaring - ruim 70 jaar - en de resoluut innoverende aanpak van de groep zijn de NOËL & MARQUET producten absoluut uniek door hun charme, authenticiteit en kwaliteit.

WE TAKE RESPONSIBILITY.

We assume responsibility |

As a family-owned company, NMC has always been aware of its responsibility for future generations. And this awareness for energy efficiency, sustainability and climate protection has meant that every step in the development, production and sale of NOËL & MARQUET design elements is checked and optimised:

- Energy from our own photovoltaic system and 100% green energy
- Our own recycling facility ensures nearly 100% recycling of waste
- Closed water circuits minimize consumption
- ISO 14001 certification – the international standard for environmental management systems
- BREEAM product declaration for all NOËL & MARQUET products (ARSTYL®, WALLSTYL®, NOMASTYL®)

Wir übernehmen Verantwortung |

Als Familienunternehmen war sich NMC immer seiner Verantwortung für zukünftige Generationen bewusst. Und dieses Bewusstsein für Energieeffizienz, Nachhaltigkeit und Klimaschutz führt dazu, dass bei der Entwicklung, der Produktion und dem Vertrieb der NOËL & MARQUET Design Elemente jeder einzelne Schritt auf Umweltverträglichkeit überprüft und optimiert wird:

- Energie aus eigener Photovoltaikanlage und 100 % Green Energy
- Eigene Recyclinganlage sorgt für nahezu 100 % Wiederverwertung der Abfälle
- Geschlossene Wasserkreisläufe minimieren den Verbrauch
- ISO 14001 Zertifizierung – die internationale Norm für Umwelt-Managementsysteme
- BREEAM Produktdeklaration für alle NOËL & MARQUET Produkte (ARSTYL®, WALLSTYL®, NOMASTYL®)

Nous agissons de manière responsable |

En tant qu'entreprise familiale, NMC a toujours agi de façon responsable vis-à-vis des générations futures. Prenant conscience de l'efficacité énergétique, du développement durable et de la protection du climat, nous nous assurons que chaque phase de développement, de production et de distribution des éléments décoratifs NOËL & MARQUET soit contrôlée et optimisée dans un souci de respect de l'environnement :

- L'énergie provient de nos propres installations photovoltaïques et est 100 % verte.
- Nous recyclons environ 100% des déchets de production dans nos propres installations.
- Des circuits fermés réduisent la consommation d'eau au minimum.
- Le groupe est certifié ISO 14001 - la norme internationale en matière de systèmes de gestion environnementale.
- Déclaration de produit BREEAM pour tous les produits NOËL & MARQUET (ARSTYL®, WALLSTYL®, NOMASTYL®)

Wij nemen onze verantwoordelijkheid |

Als familiaal bedrijf heeft NMC er altijd over gewaakt om zijn verantwoordelijkheid te nemen tegenover de toekomstige generaties. Dit streven naar energie-efficiëntie, duurzaamheid en klimaatbescherming steunt op de controle en optimalisatie van de milieukwaliteit in elke fase van de ontwikkeling, productie en distributie van de NOËL & MARQUET design-elementen:

- De energie is afkomstig van een eigen installatie zonnepanelen en bijgevolg 100% groen.
- Afval wordt voor bijna 100% teruggewonnen in de eigen recyclage-installatie.
- Gesloten circuits beperken het waterverbruik tot een minimum.
- De groep beschikt over het ISO 14001-certificaat, de internationale norm inzake milieubeheersystemen.
- Alle NOËL & MARQUET producten (ARSTYL®, WALLSTYL®, NOMASTYL®) zijn voorzien van het BREEAM product declaratie

CORNICES

DECKENLEISTEN

MOULURES DE PLAFOND

PLAFONDSLIIJSTEN

Create a completely new spatial effect with our cornices. They create an elegant and aesthetic transition between walls and ceilings. The spatial effect can vary depending on the cornice and the mounting. Cornices – many of which are for that matter suitable for the integration of direct or indirect lighting – can moreover be used to conceal unsightly transitions, cracks and smaller cables.

Gestalten Sie individuelle Räume mit unseren Deckenleisten. Sie bilden einen eleganten und ästhetischen Übergang zwischen Wand und Decke. Die Raumwirkung kann je nach Deckenleiste und Anbringung variieren. Mit Deckenleisten – von denen eine Vielzahl übrigens auch zur Integration direkter und indirekter Beleuchtung geeignet sind – lassen sich zudem unsaubere Übergänge, Risse und kleinere Kabel kaschieren.

Grâce à nos moulures de plafond, vous pouvez changer à volonté l'ambiance de votre espace intérieur. Elles forment une transition esthétique et élégante entre le mur et le plafond. L'impression d'espace varie selon le profilé et la disposition de la moulure. Les moulures de plafond, dont beaucoup conviennent à l'intégration d'un éclairage direct et indirect, vous permettent aussi de dissimuler les passages, fissures et petits câbles inesthétiques.

Met onze sierlijsten wijzigt u de sfeer in uw interieur zo vaak als u het wenst. Ze zorgen voor een esthetische en elegante overgang tussen muur en plafond. Het ruimtelijk effect verandert volgens het profiel en de plaats van de lijsten. Onze plafondlijsten zijn vaak geschikt voor het inbouwen van directe en indirecte verlichting. Bovendien zijn ze ideaal om minder esthetische vlakovergangen, barsten en kleine kabeltjes handig aan het oog te onttrekken.

These functional profiles are significantly more suitable than conventional solutions as window soffit or ideal for cladding ducts, pipes, etc.

Deutlich schneller als herkömmliche Lösungen eignen sich diese funktionalen Leisten als Fensterlaibung oder ideal zum Verkleiden von Leitungen, Rohren usw.

Nettement plus rapides à mettre en œuvre que les solutions conventionnelles, les profilés fonctionnels conviennent comme ébrasements de fenêtres ou recouvrements de tuyaux, conduits, etc.

Onze functionele profielen laten zich veel sneller aanbrengen dan de traditionele oplossingen. Bijvoorbeeld als lijstwerk voor ramen, om buizen en andere leidingen onzichtbaar weg te werken enz.
